

I am a K-Love supporter, and I want you to know it would be a mistake to remove K-Love from the airways. I am a parent of three, and two of them are teenagers. The other radio stations available are pretty negative you know all about sex, killing, doing drugs, and joining gangs. With K-Love on the air they have a choice and I know a lot of teens in my town are listening to K-Love. It is a people friendly station the music is positive and up beat. I like have it available and I believe it is good to have a positive option out there for the kids. Everywhere you look there is negative information and negative influence. K-Love is a positive influence in a sea of negativity. The city I live in work real hard on character and on fighting the influence of gangs on the youth. I believe if there were more positive choices may be it would not take so much effort to combat the gang influence, or to teach children about not having sex until marriage. I could go on and on about the positive effects that a positive environment can have on people in general. You have to know that this world for the most part does not offer much positive. My one of my teen agers does not understand what is wrong with having sex without being married it is what they see on tv, hear on the radio, and read in books. WE NEED A POSITIVE INFLUENCE TO HELP! I do know that not every person feels this way or would ever listen to K-Love, but I do not like Jerry Springer that does not mean that I feel he should be removed from the tv.

Thank You
